

*"Planning Parenthood in the Age of Autism by Nyema Hermiston is a clear, informative, and empowering guide for anyone planning to start a family. Drawing on the latest research, the book outlines the many factors that contribute to neurodevelopment and autism risk with compassion and clarity. It's an invaluable resource for anyone wanting the best start for their family."*

**- Dr Stephen Lyon**

*"This book is a brilliant exploration into the very misunderstood topic of Autism"*

**Martene McGuire – Teacher, Mother**

*"Nyema brings a rare and powerful perspective ... the result of years of professional experience"*

**Dr Nindhi Ahilan**

*"I highly recommend this book to parents, parents-to-be, or anyone affected by autism who is looking to better understand its causes"*

**Dr Sabina Vatter**
